

# DeZignWorks

The Standard In Reverse Engineering

## DeZignWorks Subscription Service Program

### Maximize your DeZignWorks Investment

DeZignWorks Subscription Service Program allows you to access new DeZignWorks releases, upgrades, enhancement request privileges, live technical support via webmeetings, and online resources. DeZignWorks Subscription is available in 1 year and 3 year increments.

- DeZignWorks releases correspond to new releases of SolidWorks, Autodesk Inventor, and ProE Wildfire. DeZignWorks subscription ensures that DeZignWorks will be compatible with your 3D modeler version.

- All DeZignWorks support is handled internally by Creative Design Concepts (the makers of DeZignWorks). By speaking directly to the software publisher, we have a complete database of knowledge to maximize your support and to help you stay productive and working efficiently as possible.

- DeZignWorks support is handled by certified engineers. DeZignWorks is unique in that support calls are handled by certified engineers that have direct expertise not only in our software, but familiarity of your 3D modeler as well.

- Enjoy our knowledge library of content available only to our subscription customers, including online training videos and full FTP access to the latest DeZignWorks software builds.

- As a DeZignWorks Subscription customer you help influence the future development of DeZignWorks. DeZignWorks subscription customers can request specific software enhancements and have access to beta releases showcasing the newest functionality.
